If you reach that last layer – i.e. at the bottom of your pile – then you have successfully reached the goal that is laid on the table.

Each of your moves is simple: first, you simply click on a Tripeak in the pile and follow the instructions given above, i.e., taking the lowest number from the piles and moving to the next lowest. Then you do the same for the other piles except that you only move a single card up or down. You can continue this process by alternating ascending and descending in addition to simply clicking on the Tripeaks in each pile.
